- Clean plastic tubs with symbols

ALUMINUM FOIL & FOIL WRAP

- Please rinse

AEROSOL & PAINT CANS

- Ensure that cans are EMPTY & lids removed
- Place metal lids loose in the blue box

The Top Four Reminders!

1

To ensure your materials are collected, place your items out on the proper side of the road by 7am on your designated collection day.

We realize that you can get into a routine regarding your collection time. However we can't guarantee that we will arrive at the same time each day. Something as simple as a driver calling in sick can alter the schedule of other drivers which could affect your community.

2

Don't let the wind blow away your recyclables! Place your containers in your blue box. Put all your newspapers and mixed paper in a plastic grocery bag and place the bag with your papers on top of your containers in your blue box.

You can also place a piece of plywood on top of the bluebox

Please do not hide your blue box and garbage. Be sure not to place it behind an obstruction where it cannot be clearly seen from the road.

3

For example: behind a snow drift, hidden in tall grass, behind a hedge, below the level road in a ditch.

If you have been instructed to place your material on the mailbox side of the road, be sure that it won't interfere with having your mail delivered!

It is extremely important to properly prepare your cardboard, especially if you have a large amount to recycle.

4

Recycling Only Communities: Cardboard has to be flattened and bundled and no larger than 30"x30"x8".

Co-Collection Communities: Cardboard does not have to be flattened if it is less than 30"x30"x30".
